

See how Cosmetic Laser Dermatology realized \$1M+ in added revenue with NextPatient

Meet the practice

-  1 location
-  8 providers

The top cosmetic dermatology center in San Diego for more than 30 years

Serving the affluent La Jolla community, Cosmetic Laser Dermatology's team of experts maintains a world-class reputation, offering innovative, custom treatments with the latest technology to support a luxury patient experience.

Challenges

A completely phone-based approach to patient scheduling limited patients' ability to book appointments, tied up front desk staff, and deterred tech-savvy clientele.

-  Appointment scheduling restricted to office hours
-  Opportunity gap in patient acquisition and practice revenue
-  Busy patient coordinators managing high demand

Solutions

Since partnering with NextPatient in 2019 for online patient scheduling, Cosmetic Laser Dermatology has realized \$1M+ in added revenue.

-  Flexible scheduling to offer specific appointment types online
-  More front office staff time dedicated to supporting a patient-centered experience
-  Increased scheduling capacity by leveraging both online and phone-based appointment booking

Just by posting your schedule online, I can almost guarantee that you'll get your return on investment within that first week
